

INVITATION

ENERGY SYMPOSIUM 2018

WITH HYDROGEN GROUP AT IKET

11TH + 12TH OF SEPTEMBER 2018

AT KARLSRUHE INSTITUTE OF TECHNOLOGY (KIT), GERMANY

www.energy-innovation-europe.eu

Dear Ladies and Gentlemen,

The annual ENERGY SYMPOSIUM provides a forum for a creative cross-sectoral exchange, networking and new business initiations and offers insights into individual energy related topics. The theme of this year's event is "Hydrogen as energy source", as hydrogen technologies will foster Europe's distributed power generation, allow the application of renewables to the transport sector and help to cope with the intermittent character of renewable energy sources like solar and wind power.

Attendees will have incredible opportunities to network during the evening program on September 11, which includes guided tours either to the Karlsruhe Palace or to a Multi Fuel Gas Station. The Symposium on September 12 will offer impulse lectures from various H₂ related topics, guided tours to the hydrogen gas station and hydrogen test centre HYKA at the KIT grounds and further networking opportunities.

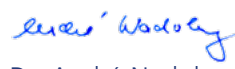

We look forward to meeting you at the Energy Symposium 2018 in Karlsruhe.

Gabriele Seitz
Member of the Managing Board
EurA AG

Johannes Schmidt
Branch Manager Energy
EurA AG

Dr. André Nadolny
Network Manager
Energy Innovation Europe

PROGRAMME Energy Symposium 2018

Karlsruhe Institute of Technology | KIT Campus Nord | 76131 Karlsruhe | Germany

September 11 WARM UP + GET TOGETHER | Multi Fuel Station + Karlsruhe Palace

September 12

09:00 KIT WELCOME + KEY NOTE

09:30 TOPIC 1 | Electrolysis

10:45 TOPIC 2 | H₂ Generation and Upgrading

11:30 TOPIC 3 | H₂ Utilisation

13:15 TOPIC 4 | H₂ Storage

14:30 TOPIC 5 | H₂ Safety and visit of HYKA Test Centre

15:45 TABLE WORKSHOP | World Café

16:45 SUMMARY + CLOSING NOTES

preliminary programme
